# Out of Date Analogue Policing in a Digital World

## *Criminals Use Better Weaponry, & Technology Whilst Proven Solutions Are Right in Front of Our Eyes*

The discussion on police firepower, guns, used by police has been going on since the times of Al Capon. The days of just the gun manufacturers Smith & Wesson or Browning are replaced with Glock or some other newbie on the block.

We better not talk about types of ammunition, had we!

It is the same with the tools of the police trade which allow law enforcement to actively use technology to majorly assist in minute by minute crime solving. Time is the enemy of us all, and we all know that time cost money and lives. Everyone wants details, the reports if you like.

The **LENS S (Law Enforcement Network Sharing Solution) platform** at its *core* is a true real-time data sharing at street-level, enhancing up-to-date information and knowledge with communications beyond radio transmissions, various data screens and delayed information flow because of siloed dusty databases.

This is so evident in the conversations we have and how we describe the true competence of the **LENS S** platform. It is being fully understood by those who realize that the days of policing since the inception by Sir Robert Peel have taken a technological positive turn. Peel's Nine Principles stand true and firm and are enhanced by smart technology.

The effectiveness of officers notating basic information with unique identifiers is evident on how departments want to be and have had previously no idea how to reach that logical crime fighting goal. Fingertip information makes a radical difference in the safety of officers and the public.

**LENS S**, both law enforcement and commercial is the '*constant companion*,' the security blanket if you wish that all in public safety, and security industry can rely on. The Smartphone and cloud-based platforms go hand in hand. Today no one goes anywhere with taking their *constant companion*. It was an American Express ad that said '**don't leave home without it!**'

**Perceptive Intelligence says, 'Do Not Go on Shift Without LENS S!'**

**LENS S**

Law Enforcement Network Sharing Solution

Now it is the Smartphone that Steve Jobs changed the world of communications, with the introduction of the iPhone. Look how far we have come and yes, so much more to follow!

It is all about missed information that was within your grasp. Lost data, events that are passed by and ignored that are the radical difference in proactivity and true productive crime solving.

You may think that this a strong overstatement, it is not!

**LENSS** has an even stronger proven resolve.

**LENSS** is more than a realization in criminality suppression; it is the logical solution not just for law enforcement but for all of public safety and commercial security. You can compare every facility in being a small or large city with the same baseline issues. It is a letters and numbers world, yes, those **unique identifiers**, license tags, social security numbers, addresses, names, GPS locations, descriptions, facial or object recognition, a list that goes on and on and is the key to all we do and say.

It assists every street-level officer, detective, Police Chief, Sheriff, Fusion Center, Homeland Security, Border Patrol, DEA, HIDTA, FBI, and is not restricted to just law enforcement. All Public Safety can successfully utilize **LENSS**, especially Emergency Management.

Public gathering facilities, Casinos, Event and Sport Centers, Shopping Malls, Educational facilities, and centralized office complexes all can effectively utilize **LENSS**.

Having collected real-time data and information is so necessary for all. It removes the issues that police officers face each day, the latest Houston Police raid on a reported drug house is a prime example. The more real-time information alleviates unexpected incidents. Being forewarned is to be forearmed.

For you to understand how **Perceptive Intelligence** and **LENSS (Law Enforcement Network Sharing Solution) platform** we can meet, demonstrate and answer all of your questions. Designed by former law enforcement, we speak your language, understand the day to day workings of our world.

**Let us converse!**

**LENSS is Your Needed Change...**

**WE ARE IN THE NOW & KEEP YOU; IN THE KNOW...**
